

**Remarks**

Applicants acknowledge the Interview Summary mailed September 7, 2004. Applicants note it was emphasized that the invention is directed to application of electrical stimulation to a muscle which does not cause contraction of the muscle, but results in angiogenesis. It was pointed out that the 1.5 volts would cause contraction of the rat TA muscle.

It is believed that no fee is due with this Response. If any additional fee is due it may be charged to deposit account number 08-2442.

Respectfully submitted,  
HODGSON RUSS LLP
